Checkout page

The screenshot shows a web browser window with the URL `localhost:8080/checkout.php`. The page is titled "Flowers." and has navigation links for Home, Pages, Shop, and Account. A user is logged in, indicated by a profile icon and the text "(1) (3)". The main heading is "Place Your Order". The form contains several input fields: "Your name:" (with placeholder "Enter your name"), "Your number:" (with placeholder "Enter your 11-digit number"), "Your email:" (with placeholder "Enter your email"), "Payment method:" (a dropdown menu with "Select a method"), "Flat no.:" (with placeholder "e.g. flat no."), "Street:" (with placeholder "e.g. Street name"), "City:" (with placeholder "e.g. Sylhet"), and "State:" (with placeholder "e.g. Sylhet city"). The browser's taskbar at the bottom shows the time as 08:22 on 05/07/2025.

Order confirmation

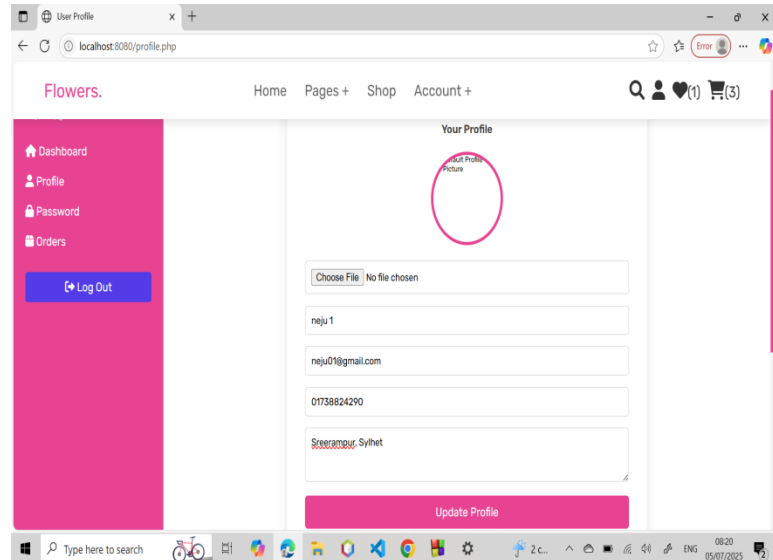

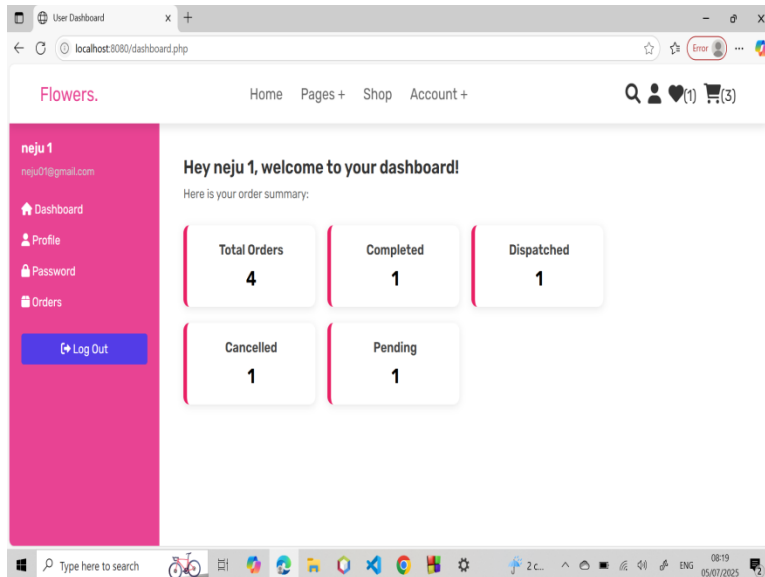

The screenshot shows a web browser window with the URL `localhost:8080/orders.php`. The page is titled "Flowers." and has navigation links for Home, Pages, Shop, and Account. A user is logged in, indicated by a profile icon, a heart icon with "(1)", and a shopping cart icon with "(3)". The main heading is "YOUR ORDERS". On the left, there is a sidebar menu with links for Dashboard, Profile, Password, and Orders, along with a "Log Out" button. The main content area displays a list of orders. The first order is expanded, showing details for "Order #1 - 21-May-2025": Name: neju, Number: 00000000000, Email: neju01@gmail.com, Address: flat no. 210, 210, sylhet, sylhet, Bangladesh - 3100, Payment Method: bKash, Your Orders: Res Rose (1), Total Price: \$1200/-, and Payment Status: Completed. There is a "View Invoice" button below the order details. The browser's taskbar at the bottom shows the time as 08:21 on 05/07/2025.

About us

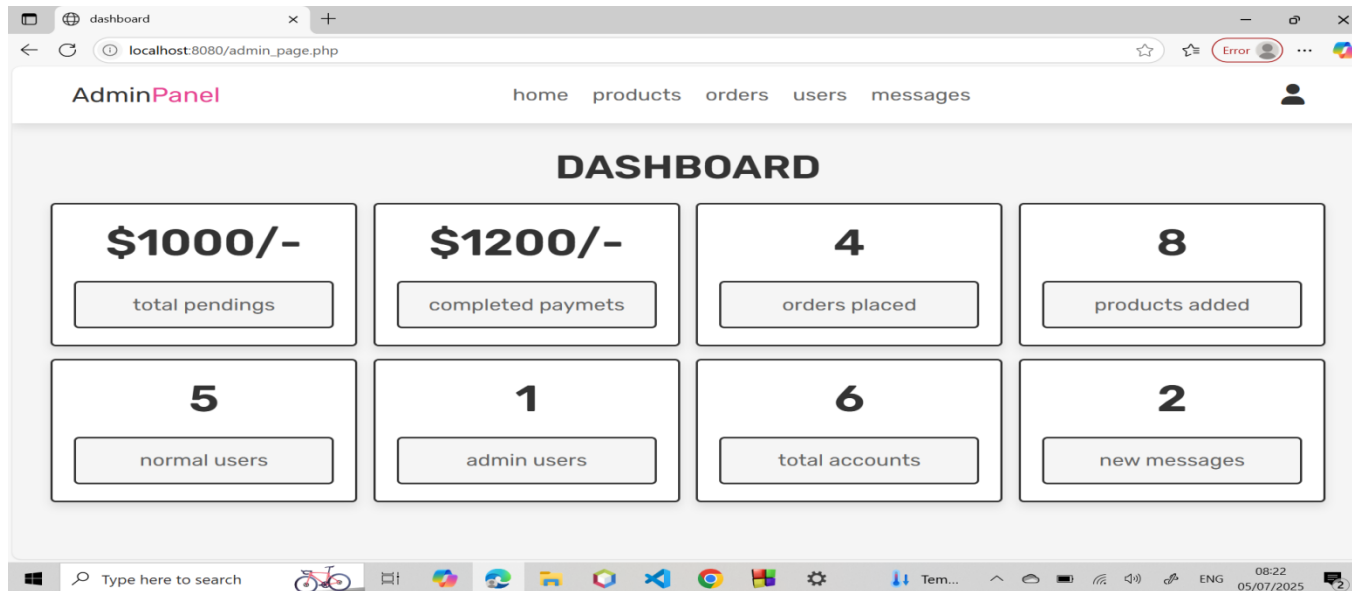

Footer

ADMIN DASHBOARD FEATURES

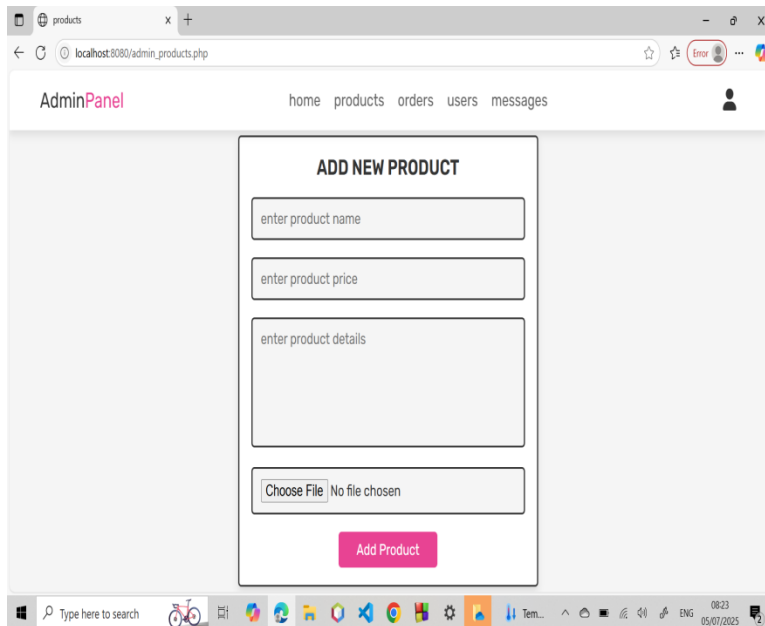

Admin dashboard:

- A control panel for the admin.
- Shows important data in one place.
- Helps manage users, content, and system settings.

ADMIN DASHBOARD FEATURES

Add product

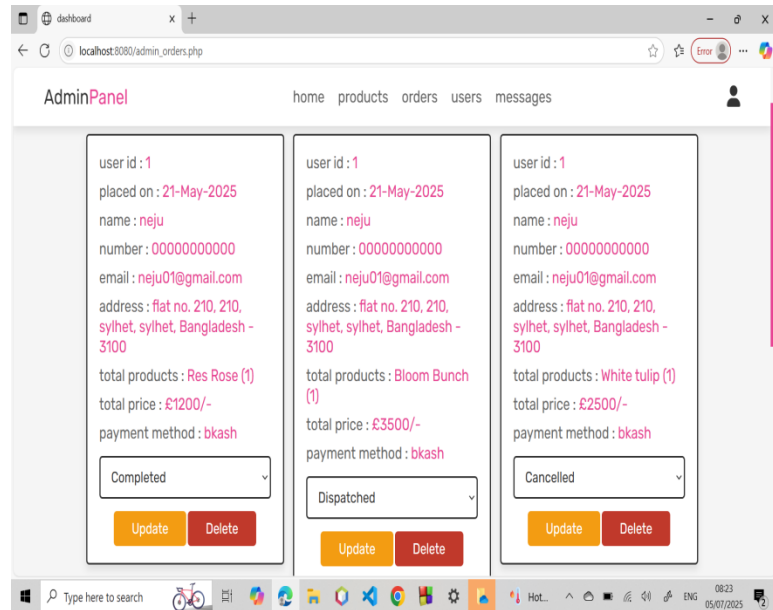

The screenshot shows the 'AdminPanel' interface with a navigation bar containing 'home', 'products', 'orders', 'users', and 'messages'. The main content area is titled 'ADD NEW PRODUCT' and contains a form with the following fields:

- enter product name
- enter product price
- enter product details
- Choose File No file chosen

At the bottom of the form is a pink 'Add Product' button. The browser address bar shows 'localhost:8080/admin_products.php'.

Order details

The screenshot shows the 'AdminPanel' interface with a navigation bar containing 'home', 'products', 'orders', 'users', and 'messages'. The main content area displays three order cards, each with the following information:

- user id : 1
- placed on : 21-May-2025
- name : neju
- number : 0000000000
- email : neju01@gmail.com
- address : flat no. 210, 210, sylhet, sylhet, Bangladesh - 3100
- total products : Res Rose (1)
- total price : £1200/-
- payment method : bkash
- Completed
- Update Delete

The second card shows:

- total products : Bloom Bunch (1)
- total price : £3500/-
- Dispatched
- Update Delete

The third card shows:

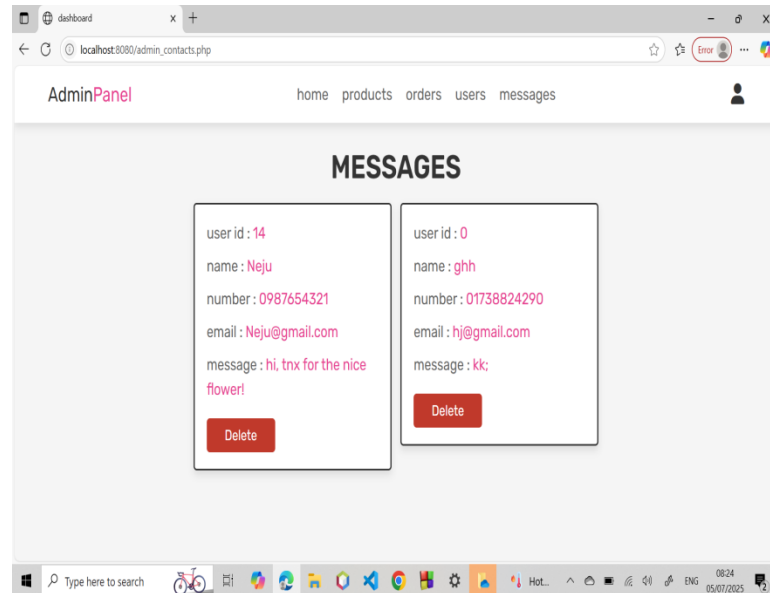

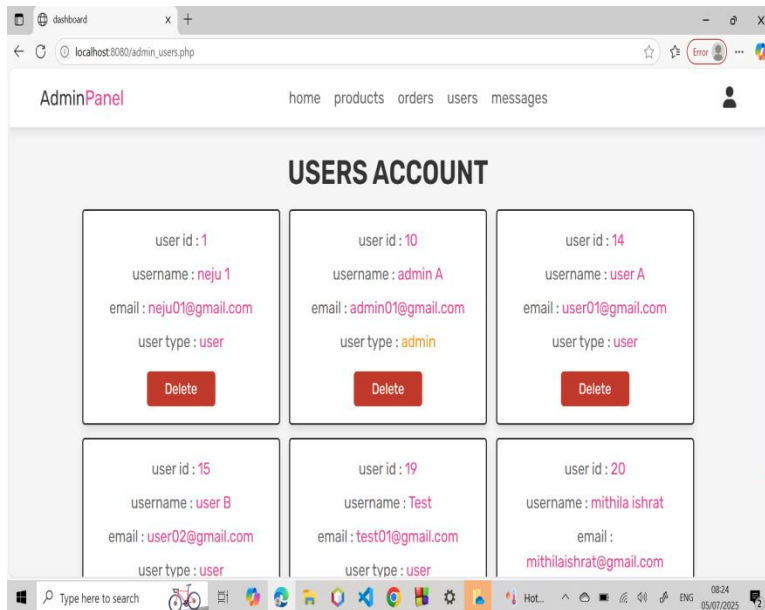

- total products : White tulip (1)
- total price : £2500/-
- Cancelled
- Update Delete

The browser address bar shows 'localhost:8080/admin_orders.php'.

CHALLENGES WE FACED

- Making the **Customer Profile Page** was the hardest part.
- It was tricky to let users change their info and keep the page working well on phones and computers.
- Making sure the website looked good and worked on **all screen sizes**.
- Handling login, logout, and keeping users **logged in** correctly.
- Connecting all parts like **cart, orders, and products** without errors.
- Not enough time to add extra features like a mobile app or live chat.

WHAT WE LEARNED

- How to build a full website using **PHP, MySQL, HTML, CSS, and JavaScript**.
- How to let users **register, log in, and manage their accounts**.
- How to show and update products, orders, and messages.
- How to make a website **easy to use and responsive**.
- How to plan a project, **fix problems**, and finish everything on time.

CONCLUSION

- A complete system for online flower shop
- Works smoothly on all devices
- Helps both customers and admins
- Successfully done with extra features

THANK YOU
